Tammie Rubin: *Points of Origin*

Tammie Rubin's *Always & Forever (forever, ever)* series is on full display at this one-person exhibition in Chelsea that pushes the forms that evoke household objects in addition to KKK hoods, dunce caps, religious costumes, funnels, and other associations. The forms Rubin adds to the surfaces can denote maps, insignias, and various abstract patterns. The eyes in her funnels add to the mystery and convey a sense that the work is standing witness to something just beyond our gaze, or altogether invisible to us. The fan objects and drawings add to the larger vision here, and my only wish was to see a few larger objects that would anchor the gallery, but maybe I'm just eager to see more from Rubin. —HV
