

## ROXA SMITH'S INTERIORS AT THE HEWITT GALLERY

October 31, 2016

Venezuelan-American artist Roxa Smith's warm and colorful interiors will be on display from October 31 to December 1 at The Hewitt Gallery at MaryMount Manhattan College.

In this prestigious space, Smith participates, along with other important artists, in the *exhibition HOME: Function / Dysfunction / Make Believe*. Roxa Smith is known for the meticulous work with which she brings to life familiar places full of details and memories, with mirrors that reflect other spaces in an image game that lets the imagination run wild. The artist with her colors awakens in the observer the emotion of home and the memory of the years spent in the shelter of the family. Roxa Smith is currently experimenting with other techniques, including collage, which, when combined with painting, adds the strength of texture to drawing and color.
